

## YOUNG SPEAKER

### Dr. Crispin Lichtenberg

Julius Maximilians Universität Würzburg, Germany

Priv.-Doz. Dr. Crispin Lichtenberg obtained his diploma in chemistry under the supervision of Prof. J. Sundermeyer (Philipps-University Marburg, Germany, and Cambridge University, UK) and his Ph.D. under the guidance of Prof. J. Okuda (RWTH Aachen University, Germany). Postdoctoral work with Prof. H. Grützmacher led him to the ETH Zurich (Switzerland). Holding a Liebig-fellowship, he currently works as an independent group leader associated with Prof. H. Braunschweig at the Julius-

Maximilians-University Würzburg. His research interests are centered around tunable redox-active entities and the exploitation of ionic and radical bismuth compounds in synthesis and catalysis.
